

Grey Gum

EUCALYPTUS PROPINQUA

QUALITY KILN DRIED TIMBER

Grey Gum - A Classic Ruby

Introduction

Having a classical ruby red colour, Grey Gum is a stunning timber species with a demanding cathedral grain pattern and exquisite natural features that highlight the species sophisticated look & feel. Grey Gum is amongst the hardest timbers available in the world, having a Janka rating of 14 it is ideally suited for flooring in both busy households and high traffic commercial areas. Grey Gum grows typically in the Northern Rivers area of NSW through to the Queensland border.

Species in Detail

Common Names	Grey Gum
Look & Features	Tight interlocking grain with large cathedral grain patterns
Botanical Name	Eucalyptus Propinqua
Colour	Ruby red with a distinctive lighter sapwood
Dry Density	1080kg/m ³
Natural Durability	Class 1 (above ground)

Species Hardness Ratings

Species hardness is measured in Janka numbers - the higher the harder the species

Tasmanian Oak	4.9
American Oak	6.0
GreenTree Rose	7.0
Flooded Gum	7.5
GreenTree Blonde	7.5
Northern Beech	8.0
Tallowwood	8.6
Bloodwood	8.8
Sydney Blue Gum	9.0
Blackbutt	9.1
Brush Box	9.5
Spotted Gum	11.0
Turpentine	12.0
Red Mahogany	12.0
Forest Red Gum	12.0
Red Ironbark	14.0
Grey Ironbark	14.0
Grey Gum	14.0
Grey Box	15.0

Species Hardness & Product Matrix

Product	Cover Width	Install method	Plywood	Particle Board	Battens	Bearers & Joists
Ultra10 Ultra Hardwood Flooring	86mm	Secret Nail	✓	✓		
12mm	83mm	Secret Nail	✓	✓		
FOURTEEN Hardwood Flooring	83mm, 130mm, 180mm	Secret Nail	✓	✓		
19mm	80mm	Secret Nail	✓	✓	✓	✓
19mm, 21mm, 23mm	130mm, 180mm, 210mm	Top Nail	✓	✓	✓	✓

Grade Descriptions

Select Grade: The Features that are present in Select grade flooring are relatively small and few in number, and although they are visible the features do not dominate the appearance of the floor.

Standard Grade (Medium Feature): Flooring in this grade will be moderately featured. Gum veins, gum pockets, insect trails, burls and borer holes, are some of the characteristic's that will be more prevalent in Standard Grade

Feature Grade (High Feature): Feature grade flooring is heavily peppered with natural features particularly large gum veins.

Rustic Grade: A full featured floor to provide an old world charm. It may contain features that are more prominent than Feature Grade but with the structural integrity of a Feature Grade Floor.

Environmental Credentials

Hurford Hardwood is committed to our forests, our community and our future.

Underpinning our commitment is an ambitious hardwood reforestation project in our local surrounding area where we have purchase over 5000 hectares of land and have commenced a planting program that will see more than 25000 new plantation eucalypt saplings established each year.

Hurford Hardwood source a proportion of timber from private native forests with the balance procured from NSW State Forestry which is certified under the Australian Forestry Standards Chain of Custody. (AS4707 - 2006).

Hurford Hardwood insist that all timber produced from these forests is done so under the principles of Ecologically Sustainable Forest Management, a system developed to sustain the full range of commercial and conservation values of the natural forest diversity within ecological limits, for current and future generations.
